

## What Independent Study Looks Like In...*Sport & Physical activity!*

1. Complete the Year 1 learning grids for K&U of key terms.
2. Complete topic specific exam questions provided by HW.
3. Use your group revision cards with exam questions on for independent or partner study.
4. Make a topic specific glossary of key terms.
5. Chop up the specification to understand the requirements of the exam paper and stick on a large piece of paper in order of topics you dislike to like (revise the dislikes more).
6. Use all of HW power points with your notes from these classes to review and reopen links to internet sites and videos that contain practical example links to topic content.
7. RAG your specification and ask your teacher to reteach the areas you dislike.
8. Research every topic area on the internet making sure you reference everything you read or quote.
9. Plan your time carefully so you meet the deadlines for coursework and for feedback.
10. Always check the wording in your model assignments, delivery guides and making scheme so that you can always hit distinction.
