

How To Use Your Knowledge Organisers

	Step 1	Step 2	Step 3
Look, cover, write, check	Give yourself a few minutes and read a section of one of your knowledge organisers. Read it at least twice.	Now cover up that section of your knowledge organiser. Write down everything you can remember from what you read.	Now uncover your knowledge organiser and compare it to what you have written. Correct any mistakes you have made and add anything you missed. Repeat this again.
Key word definitions	Read the definitions of the key words on your knowledge organiser.	Cover the definitions of the key words and write down the definitions.	Now uncover the definitions and correct any mistakes and write the definitions for any you didn't know.
Flash cards	Condense and write down the information from your knowledge organiser onto small cards.	Add pictures/ diagrams to help. Try writing questions on one side and answers on the other.	Ask a family member or friend to ask you questions based on what is on your flash cards.
Self Quizzing	Use your knowledge organiser to create a quiz by writing questions based on the information on your knowledge organiser.	Answer your questions by writing out in full sentences.	Regularly answer these questions. Family members and friends can help you by asking you these questions.
Mind maps	Create a mind map with all the information you can remember from your knowledge organiser.	Draw lines between facts that can link together and explain why these facts are linked.	Check your knowledge organiser and correct any mistakes and add any missing information.
Paired Retrieval	Ask a family member to have the knowledge organiser in front of them and ask you questions based on the information.	Write your answers down.	Check your answers and correct mistakes/ add missing information.
